

# Papillon

The Rewards Token

Official Whitepaper V1

**The information shared in this whitepaper is not all-encompassing or comprehensive and does not in any way intend to create or put into implicit effect any elements of a contractual relationship. The primary purpose of this whitepaper is to provide potential holders with pertinent information in order for them to thoroughly analyze the project and make an informed decision. Prior to your participation in Papillon, we strongly advocate a careful study of this whitepaper. Certain statements, estimates and financial information featured in this whitepaper are based on and take into consideration certain known and unknown contingencies and risks which may cause the estimated results or may differ factually and substantially from featured statements or results extrapolated or expressed in such forward looking statements here-with.**

# Disclaimer

# Background

Our founder, Papi, approached the creation of our community with a unique perspective.

**“We believe in the power of socialized strength, there is power in the masses that a small team could never create. A token is nothing without the communities who give it strength.”**

From the onset of \$PAPI we created a collective known as the \$PAPI gang and we continue to spread the ideals of strength in culture. Whether you are a new \$PAPI holder or one of the originals you stand with our founding principles.

3

# Principles

**We start with community; socialization of culture grows thoughts and ideas.**

**Spreading these ideas within our community makes us all stronger as a whole and sharing the rewards for those ideas brings the collective closer together.**

**Everyone is a part of the bigger picture, no one individual has more claim to \$PAPI ideas than any other.**

# What is \$Papi?

Papillon is a fully decentralized and popular cryptocurrency bringing new technologies to existing ideas within the DEFI community.

## Papi Token Value

Papi tokens value rests on Cyberculture and requires a token that gains in value both with its use and with its awareness.

## 2% Rewards

2% rewards returned to holders for all buy and sell transactions. Our goal is to return value to our token holders

# PROBLEM

When it comes to how tokens are bought and sold, we wanted to build a platform to help people step away from the tree (i.e single exchange/chart) to see the whole forest (i.e all trading exchange prices/charts).

We built a PapiScanner to help visualize the price action across all the markets a token is traded on to help visualize the potential arbitrage and change the way they watch their crypto.

# Vision of Papillon

We are dedicated to building the best decentralized ecosystem ever. Our token will be exchangeable with almost any ERC token directly via our exotic pairs. We will become known as the centerpiece for exchange and growth within the ecosystem.

## Platform

The goal of PapiScanner & PapiSwap is to become a safe place for you to trade your valuable cryptocurrencies for other currencies and rewarding you for doing so. We are loyal to our holders and that gives us the platform to grow unendingly.

## Commitment

Making our different products from nothing is challenging but delivering those products to our holders is the most rewarding thing we could ever ask for.

## Community

We know with our unified ecosystem of PAPI holders, influencers, developers and most of all friends we will be the most successful ecosystem to exist in the cryptocurrency space.

# Tokenomics

\$PAPI is an ERC20 token launched on the Ethereum blockchain May 13, 2021

The max supply is 100 quadrillion and key functionality is its built-in 2% redistribution mechanism to reward our token holders as we build out our products.

## 50% Burn

The max supply is 100 quadrillion and we burned half the tokens to decrease the supply.

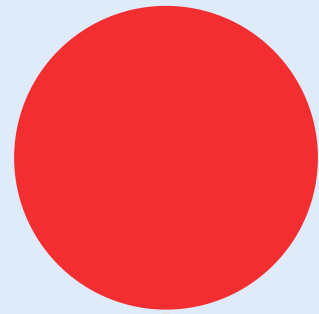

## 2% Rewards

For every transaction (buy or sell), 2% is sent to existing \$PAPI holders as a reward. We reward holders with a wallet that continues to grow.

## 10% more burn

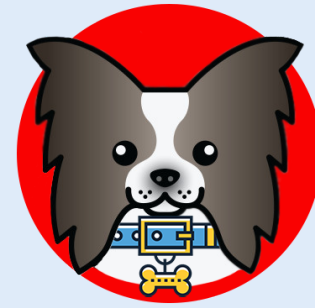

Based on milestones we'll burn an additional 10% in 2.5% increments:

- 10k holders
- 8 zeros (price)
- 25k holders
- 7 zeros (price)

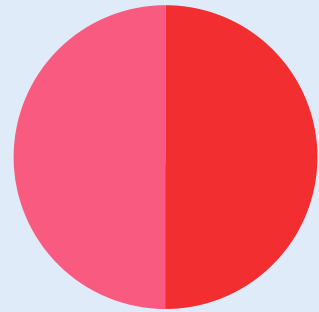

## 100 Quadrillion

Total tokens Created

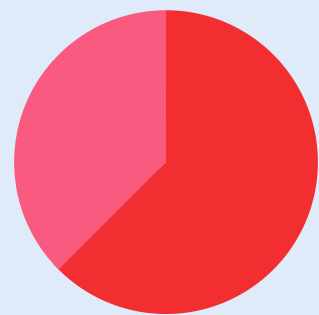

## 50% Burn

We burned half the tokens to build value with our early investors and to lower the overall supply to 50 quadrillion tokens.

## Additional 10% Burn

We plan to burn an additional 10% in 2.5% increments

- 10k holders
- 8 zeros (price)
- 25k Holders
- 7 zeros (price)

# Burn Explained

We started PAPI with a lot of tokens to help keep the price low. We wanted people to be able to invest in the community without putting a ton of money in. Over time we will burn the overall supply to 40 Quadrillion tokens on these milestones to help increase the value for our token holders

# Registered Wallets

10% for Development and Marketing  
0x6F0ab226feE88DFa705F67FE4c4092b1064301cC

## 20% liquidity

Reserves for CEX and  
liquidity (v2 and v3)

**2.5% burn**

10k holders

**2.5% burn**

8 zeros (price)

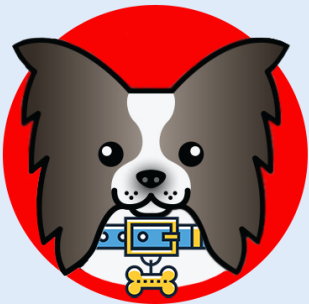

**2.5% burn**

25k Holders

**2.5% burn**

7 zeros (price)

# Papillon Products

Papillon was created April 2021 with the goal of becoming the most valuable decentralized meme project in existence. Papillon intends to bring concepts like Decentralized Finance, Yield Farming, NFTs, Decentralized Exchanges, Staking and much more to the mainstream. With a destination as large as Papillon's there is an expectation for massive returns to token holders. From our nose to our tails we'll be working tirelessly to achieve these objectives.

## \$Papi Token

ERC20 token that supplies holders with 2% redistribution every time a transaction occurs.

## \$PapiScanner

Proprietary scanner for tokens to visualize price action, arbitrage and yield farms all in once place.

## \$PapiSwap

Decentralized exchange featuring custom functionalities and exotic pairs only available to \$PAPI holders.

# Papillon Products

## \$Papi Playpen

Staking offered for \$PAPI token holders to receive rewards for staking their tokens.

## \$Papi Pound

\$PAPI proprietary NFT Marketplace where we feature NFT artists and NFTs only available to \$PAPI holders.

## \$Papi Collars

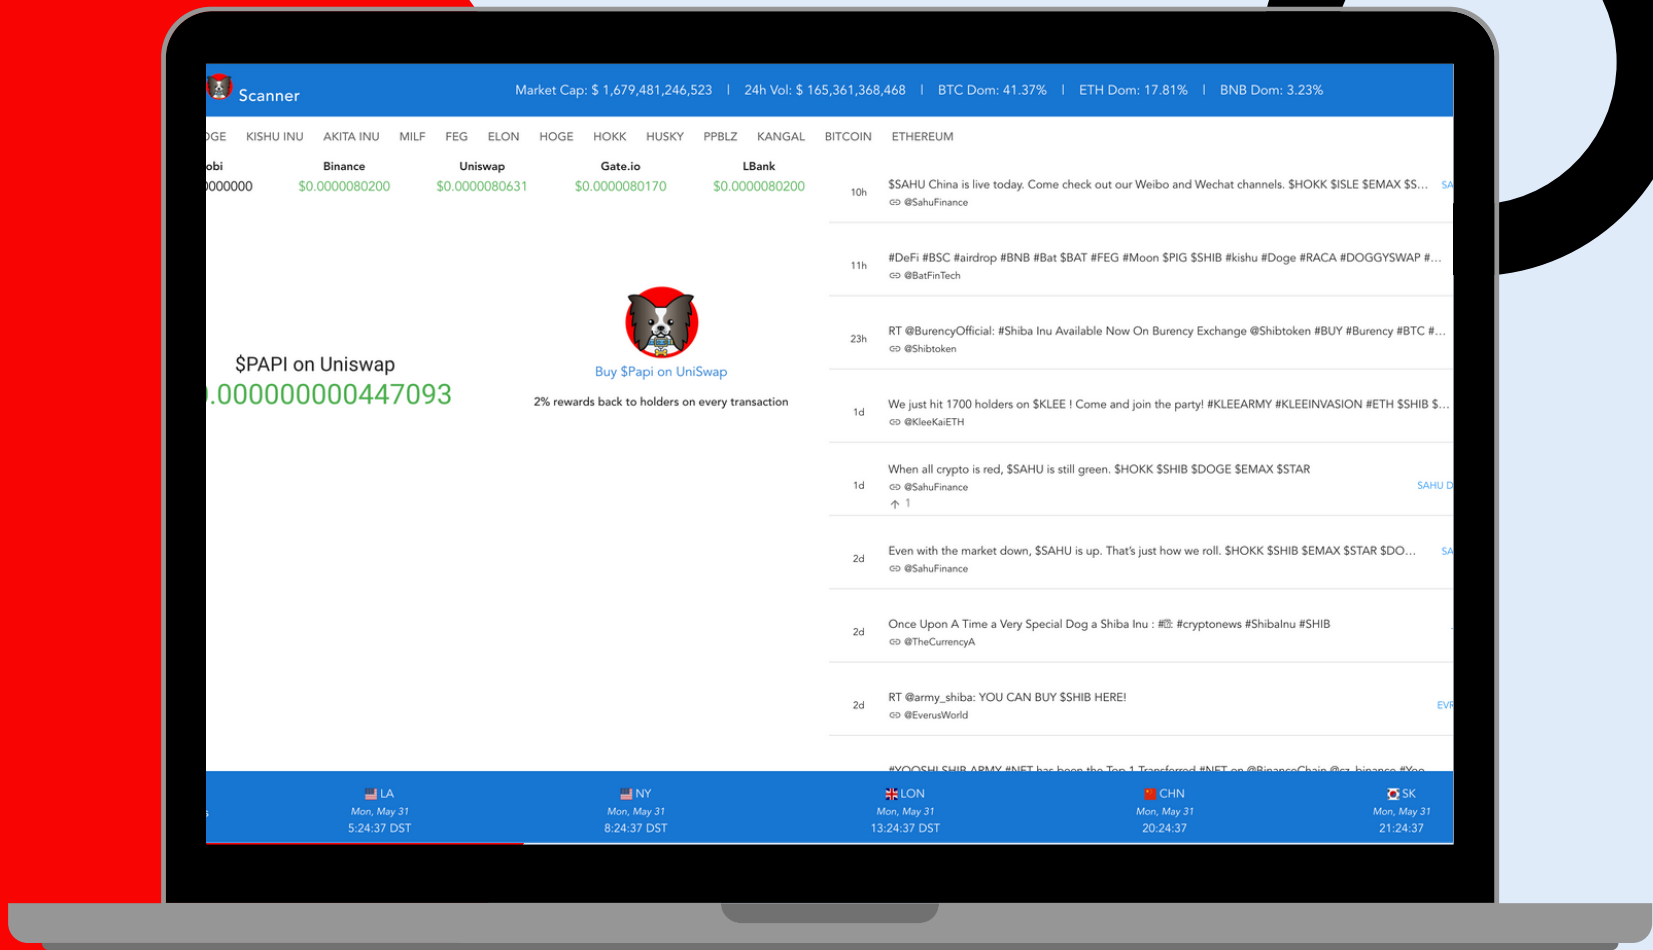

PAPI liquidity pools that generate tokens only available to liquidity providers in \$PAPI.

# PapiScanner

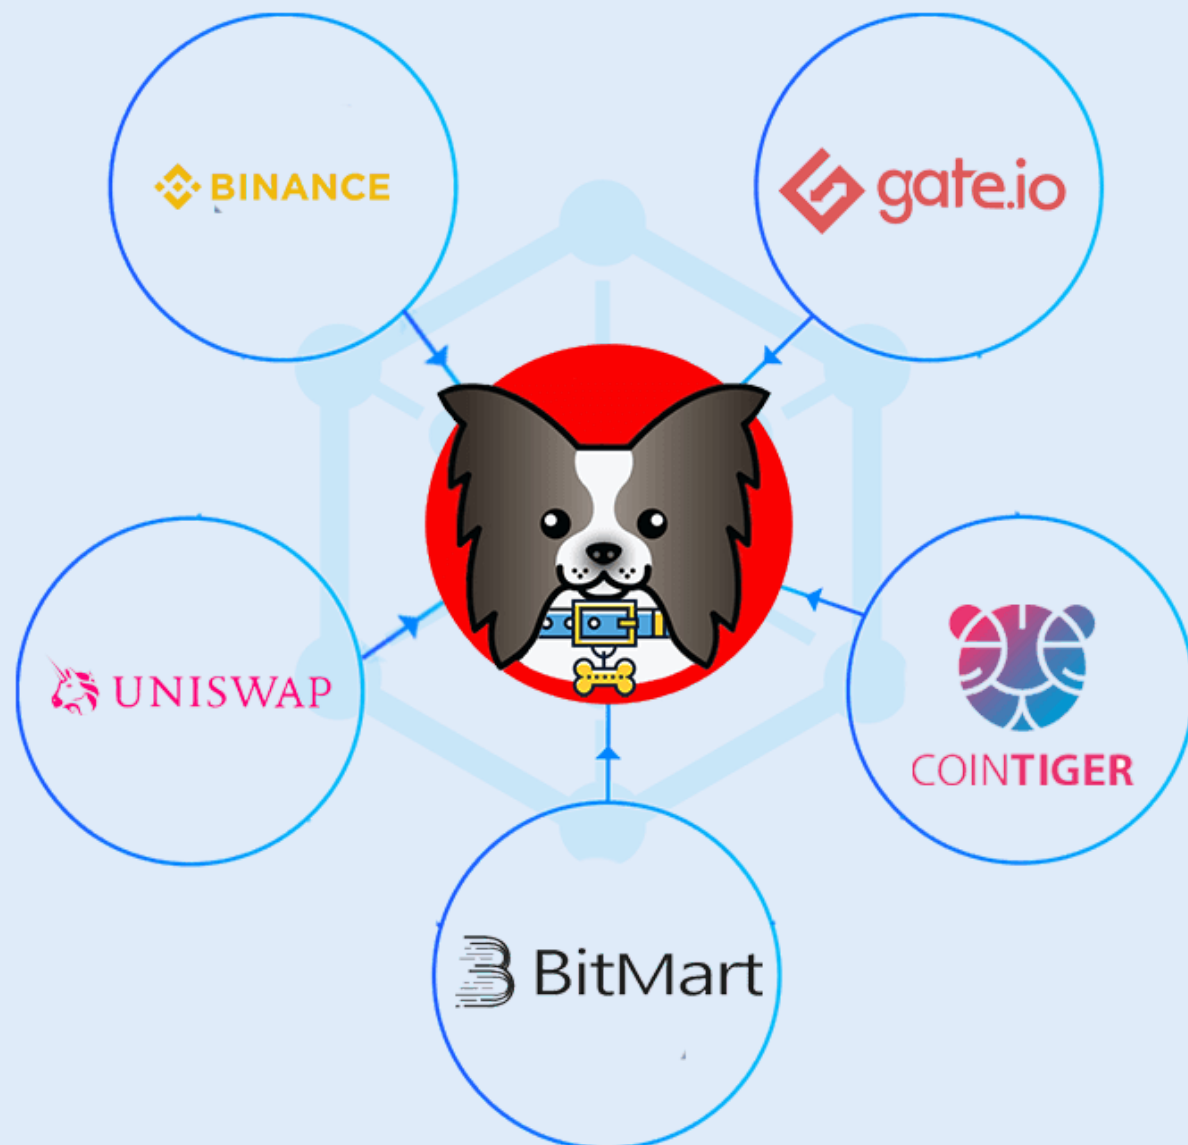

We've built a platform to give you live prices from multiple exchanges.

We're reinventing the way people watch their crypto. Instead of watching the charts on one exchange, learn to watch the arbitrage and stay ahead of trends with PapiPound Scanner.

# PapiScanner

- Prices from all available exchanges
- Social media feed
- Regional Market Time clocks
- Major Coin Market Share Data

**Beta**

Mobile Responsive  
UI Improvements

**V1**

Add Yield Farm Data  
Add PapiSwap Links to Exotic  
Pairs (i.e Shib/Papi)

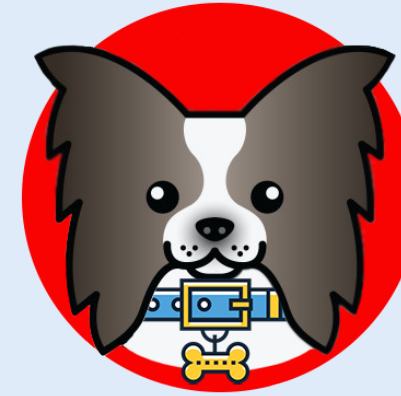

**V2**

Subscription model to add custom  
tokens and wallet holdings for  
more personalized experience

**V3**

Build the ability to execute trades  
to front run arbitrage with potential  
partner tech startup \*TBD\*

# PapiSwap

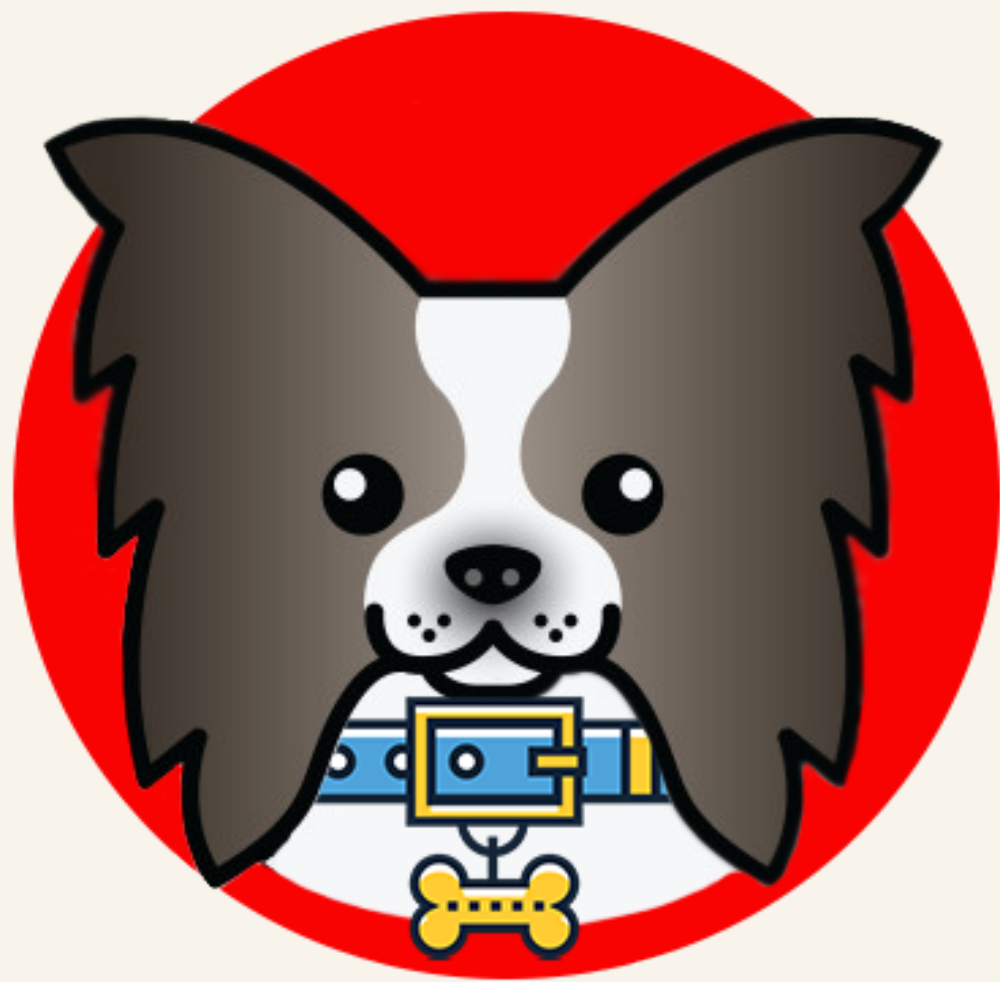

## Security

We want to provide a custom forked ui for uniswap where people can buy \$PAPI securely through our trusted url for V1. V2 with 3 token model with staking rewards for holders.

## Exotic Liquidity Pairs

We want to give the opportunity for new users to swap their featured tokens to \$PAPI and PAPI holders to trade their \$PAPI for other Tokens without paying high fees for multi-hop

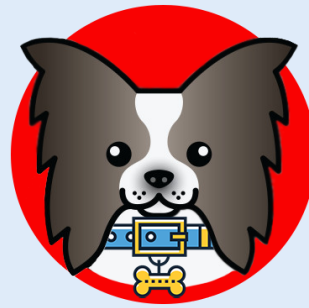

# 3 TOKENS

We will be releasing \$COLLAR and \$TAG tokens with our next release shortly after our v1 swap. This will factor into our custom swap coming soon. If you stake \$PAPI and \$COLLAR you can earn \$TAG rewards. More details coming soon.

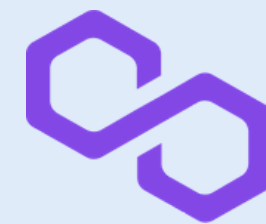

# Multichain Solutions V2 Whitepaper Updates Coming Soon.
